

## PIPELINE CONSTRUCTION PROJECT HISTORY

Project Name: Checkmate 2  
Location/Date: Reeves County, TX – November 2023  
Scope of Work: Installation of 2300' triple lay: 24" steel, 8" steel and 24" HDPE

Project Name: Leoti Swing RNG Lagoon Piping  
Location/Date: Leoti, Kansas – November 2023  
Scope of Work: Fusion and installation of 130,000' of HDPE pipe in hog lagoons to recover RNG

Project Name: Bluebird Gathering  
Location/Date: New Mexico – April 2023  
Scope of Work: Installation of 13,750' of 12" fiberglass along with associated SS and carbon steel laterals and facility tie-in

Project Name: Bear Creek Gathering System  
Location/Date: Oklahoma – April 2023  
Scope of Work: Installation of 5 Miles of 10" Steel & 3 Miles of 12" HDPE

Project Name: Hillstone Pipeline  
Location/Date: New Mexico – January 2023  
Scope of Work: Installation of 16,000' of 20" Key-Lock Fiberglass produced water pipeline with 300' of S40SS for facility tie-in

Project Name: Linton Pipeline  
Location/Date: Chickasha, OK – August 2022  
Scope of Work: Installation of 10 mile of 12" HDPE

Project Name: Corral Canyons GL Laterals  
Location/Date: New Mexico – April 2022  
Scope of Work: Installation of 0.5 miles of 4" Steel (Quad Lay)

Project Name: Borger Express  
Location/Date: Oklahoma – January 2022  
Scope of Work: Installation of 47 miles of 16" steel for crude oil service

Project Name: Chihuahua Jumper Line  
Location/Date: Scurry County, TX– May 2021  
Scope of Work: Installed 14,230' of 10" steel for gas service

Project Name: Cosby Knox  
Location/Date: Grady County, OK – May 2021  
Scope of Work: Installed 13,300' of 12" HDPE for water service

Project Name: Lambakis Pipeline  
Location/Date: Grady County, OK – May 2021  
Scope of Work: Installed 17,470' of 12" HDPE for water service

Project Name: Area 4 / ROM Lateral  
Location/Date: North Louisiana – January 2021  
Scope of Work: Installed 20,000' of 16" steel for gas service

Project Name: Gordon Federal Pipeline  
Location/Date: Dunn & McKenzie County, ND  
Scope of Work: Installed 84,000' of 16" HDPE pipe for gas service

Project Name: Driftwood Pipeline  
Location/Date: Grady County, OK  
Scope of Work: Installation of 18,800' of 12" HDPE pipe for water service

Project Name: Kevin Pipeline  
Location/Date: El Reno, OK – April 2020  
Scope of Work: Installation of 31,800' of 6" steel pipe for crude oil service

Project Name: Mark Price Pipeline  
Location/Date: Union City, OK – March 2020  
Scope of Work: Installation of 25,000' of 16" steel for gas service

Project Name: Glorietta Pipeline  
Location/Date: El Reno, OK – March 2020  
Scope of Work: Installation of 15,000' of 16" steel for gas service

Project Name: Mayberry Lateral Pipeline  
Location/Date: Calumet, OK – September 2019  
Scope of Work: 53,000' of 6" steel for crude oil service

Project Name: Larry Dual Lay Pipeline  
Location/Date: Tuttle, OK – September 2019  
Scope of Work: Dual Installation of 23,000' of 6" steel/12" HDPE

Project Name: Johnny Bench Pipeline  
Location/Date: El Reno, OK – October 2019  
Scope of Work: Installation of 12,000' of 12" steel for natural gas service.

Project Name: Hanneman Pipeline  
Location/Date: El Reno, OK – October 2019  
Scope of Work: Installation of 31,000' of 16" steel for natural gas service.

## PIPELINE CONSTRUCTION PROJECT HISTORY

Project Name: Jon Snow Pipeline  
Location/Date: El Reno, OK – October 2019  
Scope of Work: Installation of 35,000' of 12" steel for natural gas service.

Project Name: Holden Kimber Pipeline  
Location/Date: El Reno, OK – September 2019  
Scope of Work: Installation of 37,000' of 16" steel for natural gas service.

Project Name: Robbers Cave Pipeline  
Location/Date: El Reno, OK – August 2019  
Scope of Work: Installation of 18,000' of 12" steel for natural gas service.

Project Name: Crusader LP Pipeline  
Location/Date: El Reno, OK – January 2019  
Scope of Work: Installation of 26,000' of 16" steel for natural gas service.

Project Name: Hawk Pipeline  
Location/Date: Blanchard, OK – July 2019  
Scope of Work: Installation of 10,000' of 12" HDPE for produced water service.

Project Name: Candi Pipeline  
Location/Date: Blanchard, OK – September 2019  
Scope of Work: Installation of 13,000' of 12" HDPE for produced water service.

Project Name: Mudbug SWD Pipeline  
Location/Date: Okarche, OK – February 2019  
Scope of Work: Installation of 68,000' of 10" HDPE for produced water service.

Project Name: Vinita Pipeline  
Location/Date: El Reno, OK – November 2018  
Scope of Work: Installation of 21,000' of 16" steel for natural gas service.

Project Name: Terry Pipeline  
Location/Date: Newcastle, OK – February 2018  
Scope of Work: Installation of 12,000' of 12" HDPE for produced water service.

## PIPELINE CONSTRUCTION PROJECT HISTORY CONT.

Project Name: King to Shook Pipeline  
Location/Date: Amber, OK – November 2018  
Scope of Work: Installation of 16,000' of 16" steel for natural gas service.

Project Name: Minnie Pipeline  
Location/Date: Calumet, OK – August 2018  
Scope of Work: Installation of 12,000' of 12" for natural gas service.

Project Name: Vickrey Lateral Pipeline  
Location/Date: Tuttle, OK – June 2017  
Scope of Work: Installation of 22,000' of 12" steel for natural gas service.

Project Name: Hennessey Unit Pipeline  
Location/Date: Hennessey, OK – March 2019  
Scope of Work: Installation of 42,000' of 10" HDPE for produced water service.

Project Name: OGT Residue Pipeline  
Location/Date: Chickasha, OK – May 2019  
Scope of Work: Installation of 40,000' of 12" steel for natural gas service.

Project Name: Bud to Dilly Pipeline  
Location/Date: Lindsay, OK – April 2019  
Scope of Work: Installation of 11,000' of 20" HDPE for produced water service.

Project Name: Horsefly Pipeline  
Location/Date: Omega, OK – February 2018  
Scope of Work: Installation of 12,000' of steel for crude oil service.

Project Name: Chuck Norris Pipeline  
Location/Date: Minco, OK – April 2019  
Scope of Work: Installation of 24,000' of 12" steel for natural gas service.
